## Guidelines for Crab Apple Carriage

There are a couple of things we'd like to share with you so that you can plan and get the most from your carriage drive. Once you have made your plans and set your timings, please let us know so we can best accommodate your needs.

### Our French Victoria Carriage

The carriage can seat four adults comfortably. The French Victoria has a hood so offers some protection from the weather.

### The Drive

"Romantic" and "exhilarating" are words used to describe carriage drives. It is also surprisingly fast, probably faster than you imagine even at the walk. In order to gain momentum, the pull off from a standstill is energetic.

### Outfits

If you are wearing a hooped dress you may not be able to sit because of the hoop. You are more than welcome to wear a long veil, it will not be a problem.

### The Photos

The horse and carriage looks beautiful in photos. We recommend you plan your photoshoot beforehand so that you can give us an idea of how long you anticipate we will need to be a part of it. Please remember we will need to pause the carriage for the photographer to get the best photos.

### Safety

Our horses are sentient beings, so please respect them and their space. We recommend you pay attention to where you place your toes, we'd rather they weren't squashed by the carriage in motion. Please also do not allow children to run around under our horses though they would never intentionally hurt anyone, it is a very unsafe place to be. Please never step onto the carriage unless the driver is in the seat with reins in hand.
